Objective

Passionate student looking for an Internship in order to gain more experience and to improve my social and team-working skills. I am a sociable, ambitious person, who knows what he wants and makes the difference between fun and work. I discovered my passion for computers from an early age, I used to dedicate 100% to the tasks I have to perform. So far, I have not worked in this field in a company, unfortunately I did not have the opportunity but I am sure that I can adapt easily due to my socialization and teamwork skills. "Better than yesterday" - this is what defines me. I like to improve myself every day, to learn new things, because any experience will help you in the future.

Experience

Volunteering/Website Creator

Kris Ivy Denmark
May-2019 - June-2019

262/5000

Together with 4 other colleagues, we offered to create a friend who professes in the music industry a **fully functional website**. Being at the beginning of her career I considered it difficult for her to assert herself, so I offered her a helping hand.

Education

Multimedia Designer/Website developer

KEA-Københavns Erhvervsakademi
Copenhagen , Denmark
2020

Copenhagen School of Design and Technology (KEA) offers practice-oriented, higher education developed in close cooperation with the business community and educational institutions in Denmark and abroad.
